PREFACE

THE Committee on Publication of the New York State Medical Association beg leave to present the fifth volume of the MEDICAL DIRECTORY OF NEW YORK, NEW JERSEY, AND CONNECTICUT, to the members of the Association, the profession, and the public.

In compiling the list of physicians the same general order has been followed as last year, giving membership in all societies having a recognized standing in the profession, hospital and dispensary appointments, with residence, office hours, telephone call, and college and year of graduation.

No change has been made in the use of tinted paper, it having been found to be of great practical value and meeting with high commendation.

The list "received too late for classification" may appear unduly large, but in order to increase the usefulness of the book it became necessary to add changes of address received after the page proof had been returned to the printer, as well as the physician registering at a late date with the county clerk.

The committee have added a list of medical libraries in the three States, which makes a very useful reference to the physician.

Our endeavor to make the MEDICAL DIRECTORY the best reference-book for the profession can be furthered by the members of the Association assisting the Committee on Publication by notifying it of errors and omissions, and securing subscriptions from your friends by showing them a copy and pointing out the value it has been to you and the great usefulness it may be to others.

The total number of names contained in the lists of physicians is 14,524, of which 11,350 are in the State of New York, 1,991 in New Jersey, and 1,183 in Connecticut. Of the 11,350 names in the New York State lists 4,040 are credited to the Borough of Manhattan and Bronx, 1,369 to the Borough of Brooklyn, 120 to the Borough of Queens, and 60 to the Borough of Richmond, a total for Greater New York of 5,589, which leaves the number of physicians residing in the rest of the State outside of this territory 5,761.

The duration of human pregnancy is about 275 days. This is subject to some variation, and the longest period is still undetermined. As labor occurs in the larger proportion of cases between 270 and 290 days from the last menstruation, it is usual to reckon either from the first or last day of this period, taking as the mean 280 days, or a little over nine calendar months. For this approximate calculation the first day of the menstrual period may be used as being more readily ascertained. The table presents at a glance the beginning and end of 280 days for every day of the year. Find the date of menstruation in the upper line of the horizontal row, and the figure below, with the corresponding month, will indicate 280 days. In leap year, if the period of pregnancy includes February, the time for labor will be one day earlier than that given in the table.

§ 1.—It shall be the duty of the President to preside at all meetings of the Association and of the Executive Committee and to prepare a program for the meetings of the Association, and to appoint all standing committees. He shall at the annual meeting of the Association appoint two Inspectors of Election, shall call special meetings of the Association at the written request of four members, and special meetings of the Executive Committee at the written request of three of its members; he shall sign all official documents, but shall not sign any warrant upon the treasury except by the direction of the Executive Committee; and in general shall enforce the laws of the Association and perform such other duties as usually pertain to his office.

§ 2.—The Vice-President shall, in the absence or disability or at the request of the President, perform the duties of the President.

§ 3.—The Secretary shall make and preserve minutes of the meetings of the Association; shall issue all notices of meetings and shall notify candidates of their election and members of their appointment on committees or of their election as Fellows of the State Association; he shall make an annual report to the Secretary of the Fourth District Branch, which shall contain the names of the Fellows and their Alternates and of the member of the Nominating Committee of such Branch Association for his County Association; and such other duties as pertain to the office.

§ 4.—The Treasurer shall collect all dues, and other moneys due the Association and The New York State Medical Association. He shall deposit, invest, and disburse such portion as may belong to this Association in accordance with the order of the Executive Committee. He shall pay out no moneys except on orders of the Executive Committee, countersigned by the President. He shall, before January 1st, of each year, mail to each member a bill for his annual dues; shall notify all members of their arrears, and shall keep proper books of account, which shall at all times be open for examination by the Executive Committee. He shall report to the Executive Committee at its semi-annual meeting his receipts and expenditures for the half-year, and at the annual meeting he shall report to the Association the condition of its finances. He shall be under bond to an amount fixed by the Executive Committee.

Article IV.—Composition and Duties of Standing Committees.

§ 1.—The Executive Committee shall consist of the titular officers of the Association and of three elective members, one to be elected each year for a term of three years.

§ 2.—The Executive Committee shall, for all legal purposes, be the trustees of this Association.

§ 3.—This Committee shall make all arrangements for the meetings of the Association.

§ 4.—At each meeting of the Association the Executive Committee shall report to the Association through the Secretary, and at each annual meeting shall present a full report to be filed with the records of the Association.

§ 5.—This Committee shall hold regular meetings not more than twelve nor less than five days previous to annual and semi-annual meetings of the Association, and shall hold special meetings when called by the President.

§ 6.—Four members of the Executive Committee shall constitute a quorum.

§ 7.—The Committee on Membership, Ethics, and Discipline shall consist of three members to be appointed by the President.

§ 8.—This Committee shall receive all complaints against members for violation of the Code of Ethics or the By-Laws of this Association or for other breach of professional conduct. All complaints shall be in writing; shall state definitely the alleged offense and the evidence thereof; shall be signed by the member or members making the charges. Upon receipt of such accusation, the Committee shall make proper investigations. When this Committee accepts charges against a member, the accused shall be summoned before the Executive Committee without delay by a notice from this Committee served through registered mail, which notice shall contain a copy of the charges and fix the date for hearing before the Executive Committee. This Committee shall in similar manner summon the accusing member or members to be present at the hearing before the Executive Committee at which the Committee on Ethics and Discipline shall prosecute the charges. In any case involving the possibility of discipline by expulsion the accused shall be allowed counsel if he so desire. The Executive Committee after hearing the evidence, shall pass judgment upon the accused, and fix the penalty to be imposed. Their decision shall be reported to the Association at the next regular meeting for approval, which shall be final, except in so far as an appeal is allowed under the By-Laws of The New York State Medical Association.

§ 9.—The laws governing the Ethics of this Association shall be the Principles of Ethics of the American Medical Association.

§ 10.—Any member disobeying a summons of the Committee on Ethics and Discipline, or of the Executive Committee, without a satisfactory excuse, shall be liable to discipline in the manner aforesaid.

§ 11.—Charges brought against a member of the Executive Committee shall take the course above prescribed, except that the Association, instead of the Committee, shall hear the evidence and pass judgment.

§ 12.—There shall be three degrees of discipline, namely: censure, suspension, and expulsion—which shall be imposed upon members by a majority of the votes cast at a regular meeting of the Association or at a special meeting convened for that purpose.

§ 13.—The Committee on Public Health shall consist of three members appointed annually by the President. It shall be the duty of this Committee to investigate all questions relating to local public health and to report at the annual meeting any recommendations that bear upon this subject.

§ 14.—The Committee on Legislation shall consist of three members appointed annually by the President. It shall be the duty of this Committee to inform itself in regard to pending medical and sanitary legislation and to make a report to the Association at the annual meeting with recommendations, as it shall deem proper.

§ 15.—The Committees on Legislation and Public Health shall be associate committees of the corresponding committees of The New York State Medical Association.

Article V.—Transfer of Property.

§ 1.—At the expiration of his term of office, each and every officer of the Association shall transfer to the new incumbent all property of the Association in his charge, and the new incumbent shall give him a receipt therefor, in which the nature of the property shall be specified.

Article VI.—Membership.

§ 1.—Resident membership in The New York State Medical Association, the Fourth District Branch and the Monroe County Medical Association may be obtained by physicians in good standing, residing in Monroe County, and duly licensed and recorded in the office of the County Clerk of Monroe County,

under the By-Laws of The New York State Medical Association, in the following manner:

§ 2.—Application for membership shall be made on blanks furnished by this Association, signed by the applicant and indorsed by two members of the Association. Such blanks shall be sent, with such professional credentials as the Committee on Membership may require, to the Secretary, who shall present the application and credentials at the first meeting of the Association following their receipt; provided the application be accompanied by the annual dues for the current year, but if the application be made on or after the first day of October such dues shall be credited as of the next year. All candidates receiving a majority of the votes cast shall be declared duly elected.

§ 3.—Candidates duly elected shall, upon qualifying as members by signing the By-Laws of the New York State Medical Association, of the Fourth District Branch, and of this Association, be entitled to receive a certificate setting forth their membership in The New York State Medical Association. A candidate not elected shall have his dues returned.

§ 4.—All resignations shall be in writing and shall be sent, together with the applicant's certificate of membership, to the Secretary and referred by the Executive Committee to the Association. If accepted by the Association, the member thereby severs all connection with this Association and The New York State Medical Association, and relinquishes all right and title to any share in their property. No resignation shall be accepted from a member owing dues or assessments or under charges which may lead to his expulsion.

§ 5.—Removal to another county of this State, or to another State, application for reinstatement shall be governed by sections 6, 7, and 11 of Article IX, By-Laws of The New York State Medical Association, as follows:

"§ 6.—When a member in good standing of a County Association removes to another county, his name shall be transferred to the roll of members of the Association in the County of his new residence.

"§ 7.—When a member removes from the State of New York permanently, he shall cease to be a member of the Association and shall forfeit all right and title to any share in the privileges and property of the Association. But if he shall send a written notice to the Secretary of his County Association (or District Branch) within thirty days of such removal, he may apply to the Council for Non-Resident membership.

"§ 11.—When a former member applies for reinstatement, he may be admitted for membership, provided, that, if expelled for non-payment of dues, he make good his indebtedness before he makes application for reinstatement."

§ 2.—Nominations for officers, for members of the Executive Committee, Fellows of the State Association, and for members of the Nominating Committee of the District Branch, shall be made at the annual meeting in February.

§ 3.—The poll for the annual election shall remain open for one hour, or until every member present has had an opportunity to vote, after which the poll shall be declared closed by the President and no additional votes shall be received.

§ 4.—At the close of the poll, the Inspectors of Election shall immediately proceed to canvass the votes and report the result to the President, who shall announce it to the Association. If upon the first ballot no choice shall be made for an officer, the balloting shall be repeated until all the offices shall be filled. At the second and each succeeding ballot for office, the name of the candidate who received the least number of votes shall be withdrawn.

Each county medical society is entitled to five delegates for each of the assembly districts in the county of which it is the society. SUMMARY OF THE MEDICAL LAWS OF NEW YORK STATE.

For full text see Vol. I., 1899, page 254.

REQUIREMENTS FOR LICENSE.

All requirements for admission should be completed at least one week before examinations.

They are as follows:

1. Evidence that applicant is more than 21 years of age (Form 1).

2. Certificates of moral character from not less than two physicians in good standing (Form 2).

3. Evidence that applicant has the general education required, preliminary to receiving the degree of bachelor or doctor of medicine in this State (medical student certificate).

4. Evidence that applicant has studied medicine not less than four full school years of at least nine months each, including four satisfactory courses of at least six months each, in four different calendar years in a medical school registered as maintaining at the time a satisfactory standard. New York medical schools and New York medical students shall not be discriminated against by the registration of any medical school out of the State, whose minimum graduation standard is less than that fixed by statute for New York medical schools.

The increase in the required course of medical study from three to four years does not take effect till January 1, 1898, and does not apply to students who matriculated before that date and received the degree of M.D. before January 1, 1902 (Form 1).

First exemption: "The regents may in their discretion accept as the equivalent for any part of the 3d or 4th requirement, evidence of five or more years' reputable practice of medicine, provided that such substitution be specified in the license."

5. Evidence that applicant "has received the degree of bachelor or doctor of medicine from some registered medical school, or a diploma or license conferring full rights to practice medicine in some foreign country" (Form 3 or original credentials).

6. The candidate must pass examinations in anatomy, physiology and hygiene, chemistry, surgery, obstetrics, pathology and diagnosis, therapeutics, practice and materia medica. The questions "shall be the same for all candidates, except that in therapeutics, practice and materia medica all the questions submitted to any candidate shall be chosen from those prepared by the board selected by that candidate and shall be in harmony with the tenets of that school as determined by its State board of medical examiners."

Second exemption: "Applicants examined and licensed by other State examining boards registered by the regents as maintaining standards not lower

than those provided by this article, and applicants who matriculated in a New York State medical school before June 5, 1890, and who received the degree of M.D. from a registered medical school before August 1, 1895, may without farther examination, on payment of $10 to the regents and on submitting such evidence as they may require, receive from them an indorsement of their licenses or diplomas, conferring all rights and privileges of a regents' license issued after examination."

7. A fee of $25 payable in advance.

Further information relating to State examination in Medicine and Dentistry, etc., may be obtained from James Russell Parsons, Jr., Albany Secretary of the Board of Regents of the University of the State of New York.

In other Boroughs from 9 A.M. to 4 P.M., on week-days and from 9 A.M. to noon on Sundays and legal holidays. At other hours, if absolutely necessary, they can be procured in the Borough of Manhattan in the office of the Division of Contagious Diseases, and in the other Boroughs at the residence of the Assistant Registrar.)

3. No dead body shall be retained unburied more than four days, or, where death has resulted from contagious diseases, for a longer time than 24 hours after death of such person (excepting in the public morgue) without a permit from the Health Department, specifying the length of time it may remain unburied. (San. Code, § 165.)

(Such permits must be countersigned by the Sanitary Superintendent or Assistant Sanitary Superintendent.)

4. No dead body shall be transported from or in the City of New York, without a permit issued by the Health Department, or by the health officer of any other place in this State, where such death may have occurred; provided that the same effect shall be given to transit permits issued under the Laws of the States of New Jersey and Connecticut as to a permit issued by the City Health Department. (San. Code, § 163.)

5. No dead body shall be removed from one part of the city to another without a permit from the Health Department. (San. Code, § 163.)

(The only exceptions allowed are the removal of so-called "Coroner's Cases" on a Coroner's permit, and the removal of bodies from hospitals to the morgue by the public authorities.)

6. There shall be no public or church funeral of any person who has died of small-pox, diphtheria, croup, scarlet fever, measles, plague, yellow fever, typhus fever, or Asiatic cholera. (San. Code § 142..

7. The body of a person who has died of any of the diseases above mentioned must be disinfected and wrapped in a sheet saturated with a disinfecting solution* and put in a permanently sealed casket or coffin. (San. Code, § 14.)

Rules and Regulations of the Health Department Relating to Undertakers.

BURIAL PERMITS.

1. No burial permit for a person deceased in New York City will be issued excepting in exchange for a proper certificate of death.

(If a permit already issued has been lost or mislaid, a duplicate will be issued only in exchange for an affidavit of the undertaker that the first one has been lost, and that, if found, it will be returned to the Health Department. If duplicate permits are issued for the same case, the one that is not used must be returned to the Health Department.)

2. Certificates of death must be filled out with black ink.

3. No certificate will be accepted which has been corrected, interlined, or altered in any way so as to change its meaning. (See, also, Rule 2 for physicians.)

4. No certificate will be accepted which has been imperfectly filled out (except for foundlings or the unknown dead), or which is illegible.

(If all the information called for by the headings cannot be obtained, the corresponding space should not be left blank, but should contain the word "unknown" or "not known," etc.)

* Disinfecting solutions recommended by the Board of Health are: (1) six ounces of carbolic acid in one gallon of hot water; (2) sixty grains of corrosive sublimate and two tablespoonfuls of common salt in one gallon of hot water. The latter should not be kept in a metallic vessel.

6. No earth burials are allowed below 130th st. No vault below that street shall be opened for the deposit of a body, without the approval of the Sanitary Superintendent or Assistant Sanitary Superintendent.

7. If a permit is issued for burial in the City Cemetery, the coupons are removed and retained by the Bureau of Records. If a change in the place of burial renders it necessary to have the coupons, they can be procured at the Permit Office on showing the original permit and making a written statement of the change.

(Every change in the place of burial from that originally given when the permit is issued must be reported at the Burial Permit Office, and a new permit issued by the clerk, as a permit that has been altered will not be accepted at the cemetery.)

TRANSIT PERMITS.

For persons who die outside of New York City.

1. Transit permits will be issued for the burial in or passage through the city of bodies of persons who die outside of New York City only in exchange for the papers and evidences of identity and of the cause of death which have accompanied the body from the place of death, and upon a written statement (on blanks furnished by the Department) of the persons applying for such permits.

2. Such permits will be required in every case, excepting when the body is accompanied by a permit issued by the proper health officer, under the laws of the State of New York, New Jersey, or Connecticut, a transit permit issued in either of those States having the same effect in New York City as one issued by this Department.

3. Transit permits will not, in any case, be issued in advance of the arrival of the body, whether by ship, boat, or railroad, nor will such permit be issued when the death was due to yellow fever, plague, Asiatic cholera, or smallpox, excepting by express permission of the President of the Department.

4. Transit permits will be issued for the removal of a dead body from one portion of the city to another, for the convenience of the family or the undertaker. Such permit will have no coupons, and must be returned to the Health Department when the burial permit is applied for.

5. Transit permits for bodies arriving at the Grand Central Depot from outside of the city will be issued at any hour, day or night, by the officer in charge of the police-station in the building.

DISINTERMENT PERMITS.

1. Permits for the disinterment of bodies already buried within the limits of New York City will be issued upon written application (on blanks furnished by the Health Department) of relatives of the deceased, or other persons who furnish written evidence from such relatives that they have been authorized by them to apply for such permit.

2. Permits for disinterment must be countersigned by the Sanitary Superintendent or the Assistant Sanitary Superintendent.

3. Bodies which are disinterred must be placed in hermetically sealed caskets or coffins.

CEMETERIES.

LEGAL DUTIES OF SEXTONS AND OTHERS IN CHARGE OF CEMETERIES.

1. No new cemetery, tomb, or vault for dead human bodies shall be established, nor any such place opened or disturbed, without a permit from the Health Department. (San. Code. § 168.)

2. Every dead body buried within the City of New York must be buried to the depth of six feet below the surface of the ground, and four feet below any closely adjacent street, except in the Borough of Queens a body may be buried only three feet below the surface. (San. Code, § 168.)

3. Permits received by keepers of cemeteries within the city limits must be

returned to the Health Department before 12 M. on Monday of each week. (San. Code, § 170.)

By order of the Board of Health.

EUGENE W. SCHEFFER, Secretary.

COMPLAINTS.

Complaints to the Board of Health concerning contagious diseases, the unsanitary condition of houses, adulteration of food, etc., should be made in writing addressed to the Board of Health.

MEDICAL SOCIETIES OF NEW JERSEY.

NOTE.—"District Society" is equivalent to County Society.

THE MEDICAL SOCIETY OF NEW JERSEY.—Organized in 1766. Received its first charter June 2, 1790. This act expired by its own limitation in 1815, and a new act of 1816 provided for a District Society in each county, to make their own laws and regulate their own concerns, provided they were not contrary to the Constitution of the State Society. This charter was not acceptable to the profession, and in 1818 a supplement was passed, providing that the society should be composed of four delegates from each District Society which were or might hereafter be formed, who, with the officers for the time being, should constitute the society.

This supplementary act, constituting the society by delegates of the local societies, placed it upon a new basis and secured the cordial sympathy and co-operation of the physicians of the State. The State Society was thus made the creature of the local societies, and derived its life from their delegates annually elected. The mode of constituting the society has undergone no substantial change since 1818. In 1864 the society, desirous of surrendering "all its special privileges and pecuniary immunities, and to reorganize, as nearly as possible, upon the voluntary basis," applied for and obtained its present charter, which went into effect on its centennial year, 1866. In 1903 the Society adopted a new Constitution and By-Laws, by which every member of a County Society is made ipso facto a member of the State Society.

MEETING.—The next annual meeting will be held June 21, 22 and 23, 1904, at Atlantic City.

OFFICERS.—Henry Mitchell, Pres., Asbury Park; A. W. Taylor, 1st Vice-Pres., Beverly; W. B. Johnson, 2d Vice-Pres., Paterson; H. B. Elmer, 3d Vice-Pres., Bridgeton; E. W. Hedges, Cor. Sec., Plainfield; W. J. Chandler, Rec. Sec., South Orange; Archibald Mercer, Treas., 31 Washington st., Newark.

For Charter, By-Laws, and further details, see Vol. I., 1899, page 461.

§ 4714. No person shall, for compensation, gain or reward, received or expected, treat, operate, or prescribe for any injury, deformity, ailment, or disease, actual or imaginary, of another person, nor practice surgery or midwifery, until he has obtained such a certificate of registration as is in § 4715 provided, and then only in the kind or branch of practice stated in said certificate; but this chapter shall not apply to dentists while practicing dentistry only; nor to any person in the employ of the United States government while acting in the scope of his employment; nor to any person who shall furnish medical or surgical assistance in cases of sudden emergency; nor to any person residing out of this State who shall be employed to come into the State to assist or consult with any physician or surgeon who has been registered in conformity with the provisions of this chapter; nor to any physician or surgeon then actually residing out of this State who shall be employed to come into this State to treat, operate, or prescribe for any injury, deformity, ailment, or disease from which any person is suffering at the time when such non-resident physician or surgeon is so employed; nor to any actual resident of this State recommending by advertisement or otherwise the use of proprietary remedies sold under trade-marks issued by the United States government, in so far and to such extent only as the use of such remedies are concerned; nor to any chiropodist or clairvoyant who does not use in his practice any drugs, medicines, or poison; nor to any person practicing the massage method, or Swedish movement cure, sun cure, mind cure, magnetic healing, or Christian science; nor to any other person who does not use or prescribe in his treatment of mankind drugs, poisons, medicines, chemicals, or nostrums.

NOMINATION AND APPOINTMENT OF MEMBERS OF EXAMINING COMMITTEES.

§ 4716. The Connecticut Medical Society, the Connecticut Homœopathic Medical Society, and the Connecticut Eclectic Medical Society shall each annually in December file with the State Board of Health the name of one physician, practicing in this State, who shall have been recommended by such medical society as a person competent to serve upon one of the examining committees appointed by the State Board of Health, as specified in chapter 158 of the public acts of 1893; and in case any vacancy occurs upon any of said examining committees, the president of the society of whose members said committee is composed shall nominate such a person to fill said vacancy. Annually in January the State Board of Health shall appoint one member of each of said committees, who shall

have been nominated for such office as aforesaid, to serve five years; and said board shall in the same manner fill any vacancy occurring in any of said committees.

EXAMINATION THROUGH INTERPRETER.

§ 4717. Every examining committee provided for in § 4716 shall, when requested by an applicant for a certificate permitting said applicant to practice midwifery, if said applicant does not understand the English language, conduct the examination through an interpreter of the language which the applicant understands. Said interpreter shall be furnished and paid by the applicant, and shall give the committee conducting the examination satisfactory proof of his ability correctly to translate the language of the applicant into English. Whenever such applicant shall have satisfactorily passed an examination so conducted, a certificate of registration shall be issued as provided in § 4715.

EXAMINATIONS. PAPERS RECORDED. LIST OF COLLEGES.

§ 4718. The said examining committees shall hold examinations on the second Tuesdays of March, July, and November of each year, at such places as they may designate, and at such other times and places as they shall determine. Applicants for certificates to practice medicine or surgery shall be examined in anatomy, physiology, medical chemistry, obstetrics, hygiene, surgery, pathology, diagnosis, and therapeutics, including practice and materia medica. Each committee shall frame its own questions and conduct its examinations in writing and both questions and answers shall be filed with the State Board of Health. Each applicant shall choose by which of the three committees he shall be examined; but before taking such examination he shall pay to the committee the sum of fifteen dollars, provided, that the fee for examination in midwifery alone shall be ten dollars. Upon the receipt of any duplicate statements as in § 4715 provided, the State Board of Health shall transmit one of said duplicate statements, together with a duplicate of the certificate of registration in each case, to the town clerk of the town wherein the person so filing said statement resides; and in case such person does not reside in the State of Connecticut, the State Board of Health shall transmit said statement and certificate to the town clerk of the town in this State nearest to the place of residence of such person; and said town clerk shall record the same in a book to be provided for that purpose by the State Board of Health, and shall then return the same to the person who filed the same with the Board of Health; and said town clerk shall receive for such recording a fee of twenty-five cents, to be paid by the State Board of Health out of the amount so paid to it as aforesaid. The secretary of each of said medical societies shall file with the secretary of the State Board of Health a list of medical colleges or institutions recognized as legal and reputable by his society; or all of such secretaries may agree upon a single list; and such list or lists may be corrected as may be necessary.

EXCEPTIONS; PRESCRIPTION IN ENGLISH; PENALTIES; CLERK.

§4719. Nothing in this chapter shall be construed to repeal or affect any of the provisions of any private charter. The provisions of this chapter shall not apply to licensed pharmacists. All physicians or surgeons practicing under the provisions of this chapter shall, when requested, write a duplicate of their prescriptions in the English language. Every person who violates the requirements of this section regarding prescriptions shall be fined ten dollars for each offense. Every person violating any provision of § 4714 shall be fined not less than one hundred dollars nor more than three hundred dollars for the first offense, and for each subsequent offense not less than two hundred nor more than five hundred dollars, or imprisoned in the county jail for not less than thirty nor more than ninety days, or both; the fine, when collected, shall be paid one-half to the person or corporation making the complaint, and the other half to the State Board of Health. Every person who shall swear to any falsehood in any statement required by § 4715 to be filed with the State Board of Health shall be guilty of perjury. The State Board of Health may appoint a clerk, and fix his salary, to be paid only out of the fees and penalties received under the provisions of this chapter.

REVOCATION OF CERTIFICATE.

§ 4720. The secretary of the State Board of Health, upon the written request of all the members of any one of the examining committees mentioned in § 4716, may revoke and cancel the certificate of registration of any person convicted of any crime in the practice of his professional business, or convicted of a felony; but no one of the examining committees shall have the right to request the revocation and cancellation of a certificate granted upon the examination of any one of the other examining committees.

§ 4715 of the general statutes is hereby amended to read as follows: No person shall obtain a certificate of registration as in § 4714 required until he has passed a satisfactory examination before one of the examining committees appointed for the purpose by the State Board of Health except as hereinafter provided, nor until he has filed with said board duplicate certificates signed by a majority of said examining committee, stating that they have found him qualified to practice either medicine, surgery, or midwifery, nor until he has filed with said board duplicate statements subscribed and sworn to by him upon blanks furnished by said board, giving his name, age, place of birth, and present residence, stating of what medical college he is a graduate, and the date of such graduation, together with such other information as shall be required by said blanks.

No person shall be eligible to said examination until he presents to the committee, by whom he is to be examined, satisfactory evidence that he has received a diploma from some legally incorporated medical college.

"Any one of the examining committees appointed under the provisions of § 4716 may accept the license of any State board of medical examiners of any State of the United States or in the District of Columbia in lieu of said examination, provided the applicant shall present such license to the examining committee before whom he appears, together with satisfactory evidence that such license has been issued after a State examination of as high a grade and of the same kind as that required by said examining committee, that he is a resident of this State or that he intends in good faith to permanently reside herein, that he has been in actual practice for a period of at least six months in the year immediately preceding the date of his application, and that he is of good moral character and professional standing; and upon the payment to said committee of the sum of fifteen dollars he may receive a certificate of the approval of such license by said examining committee."

Any person passing such examination or obtaining such certificate of approval and filing said certificates and statements shall receive from said State Board of Health, upon payment of two dollars, a certificate of registration, which shall state that the person named has been found qualified so to practice.

§ 4718 of the general statutes is hereby amended by striking out in the thirteenth and fourteenth lines thereof the following words:

"An applicant, rejected by an examining committee, shall not be eligible to re-examination until after the expiration of twelve months," and inserting in lieu thereof the following: "An applicant rejected by an examining committee shall not be eligible to examination before either of the other examining committees until after the expiration of twelve months, but may be re-examined by the committee before whom he appeared, at any subsequent meeting of said committee."

PRINCIPLES OF MEDICAL ETHICS.

PREFACE.

At the annual meeting of the American Medical Association, held in New Orleans, the House of Delegates unanimously adopted, on May 7, 1903, the "Principles of Medical Ethics" recommended by its committee, and ordered that the following extract from the report of the Special Committee on Revision of the Code of Medical Ethics be printed as an explanatory preface to these "Principles."

"The caption 'Principles of Medical Ethics' has been substituted for 'Code of Medical Ethics.' Inasmuch as the American Medical Association may be conceived to hold a relation to the constituent state associations analogous to that of the United States through its constitution to the several states, the committee deemed it wiser to formulate the principles of medical ethics without definite reference to code or penalties. Large discretionary powers are thus left to the respective state and territorial societies to form such codes and establish such rules for the professional conduct of their members as they may consider proper, provided, of course, that there shall be no infringement of the established ethical principles of this Association.

The American Medical Association promulgates as a suggestive and advisory document the following:

CHAPTER I.—THE DUTIES OF PHYSICIANS TO THEIR PATIENTS.

§ 1.—Physicians should not only be ever ready to obey the calls of the sick and the injured, but should be mindful of the high character of their mission and of the responsibilities they must incur in the discharge of momentous duties. In their ministrations they should never forget that the comfort, the health, and the lives of those entrusted to their care depend on skill, attention, and fidelity. In deportment they should unite tenderness, cheerfulness, and firmness, and thus inspire all sufferers with gratitude, respect, and confidence. These observances are the more sacred because, generally, the only tribunal to adjudge penalties for unkindness, carelessness, or neglect is their own conscience.

§ 2.—Every patient committed to the charge of a physician should be treated with attention and humanity, and reasonable indulgence should be granted to the caprices of the sick. Secrecy and delicacy should be strictly observed; and the familiar and confidential intercourse to which physicians are admitted, in their professional visits, should be guarded with the most scrupulous fidelity and honor.

§ 3.—The obligation of secrecy extends beyond the period of professional services; none of the privacies of individual or domestic life, no infirmity of disposition or flaw of character observed during medical attendance, should ever be divulged by physicians, except when imperatively required by the laws of the state. The force of the obligation of secrecy is so great that physicians have been protected in its observance by courts of justice.

§ 4.—Frequent visits to the sick are often requisite, since they enable the physician to arrive at a more perfect knowledge of the disease, and to meet promptly every change which may occur. Unnecessary visits are to be avoided, as they give undue anxiety to the patient; but to secure the patient against irritating suspense and disappointment the regular and periodical visits of the physician should be made as nearly as possible at the hour when they may be reasonably expected by the patient.

§ 5.—Ordinarily, the physician should not be forward to make gloomy prognostications, but should not fail, on proper occasions, to give timely notice of dangerous manifestations to the friends of the patient; and even to the patient, if absolutely necessary. This notice, however, is at times so peculiarly alarming when given by the physician, that its deliverance may often be preferably assigned to another person of good judgment.

§ 6.—The physician should be a minister of hope and comfort to the sick, since life may be lengthened or shortened not only by the acts but by the words or manner of the physician, whose solemn duty is to avoid all utterances and actions having a tendency to discourage and depress the patient.

§ 7.—The medical attendant ought not to abandon a patient because deemed incurable; for continued attention may be highly useful to the sufferer and comforting to the relatives, even in the last period of the fatal malady, by alleviating pain and by soothing mental anguish.

§ 8.—The opportunity which a physician has of promoting and strengthening the good resolutions of patients suffering under the consequences of evil conduct ought never to be neglected. Good counsels, or even remonstrances, will give satisfaction, not offense, if they be tactfully proffered and evince a genuine love of virtue, accompanied by a sincere interest in the welfare of the person to whom they are addressed.

CHAPTER II.—THE DUTIES OF PHYSICIANS TO EACH OTHER AND TO THE PROFESSION AT LARGE.

Article I.—Duties for the Support of Professional Character.

§ 1.—Every one on entering the profession, and thereby becoming entitled to full professional fellowship, incurs an obligation to uphold its dignity and honor, to exalt its standing, and to extend the bounds of its usefulness. It is inconsistent with the principles of medical science and it is incompatible with honorable standing in the profession for physicians to designate their practice as based on an exclusive dogma or a sectarian system of medicine.

§ 2.—The physician should observe strictly such laws as are instituted for the government of the members of the profession; should honor the fraternity as a body; should endeavor to promote the science and art of medicine, and should entertain a due respect for those seniors who, by their labors, have contributed to its advancement.

§ 3.—Every physician should identify himself with the organized body of his profession as represented in the community in which he resides. The organization of local or county medical societies, where they do not exist, should be effected, so far as practicable. Such county societies, constituting as they do the chief element of strength in the organization of the profession, should have the active support of their members and should be made instruments for the cultivation of fellowship, for the exchange of professional experience, for the advancement of medical knowledge, for the maintenance of ethical standards, and for the promotion in general of the interests of the profession and the welfare of the public.

§ 4.—All county medical societies thus organized ought to place themselves in affiliation with their respective state associations, and these, in turn, with the American Medical Association.

§ 5.—There is no profession from the members of which greater purity of character and a higher standard of moral excellence are required than the medical; and to attain such eminence is a duty every physician owes alike to the profession and to patients. It is due to the patients, as without it their respect and confidence cannot be commanded; and to the profession, because no scientific attainments can compensate for the want of correct moral principles.

§ 6.—It is incumbent on physicians to be temperate in all things, for the practice of medicine requires the unremitting exercise of a clear and vigorous understanding; and in emergencies—for which no physician should be unprepared—a steady hand, an acute eye, and an unclouded mind are essential to the welfare and even to the life of a human being.

§ 7.—It is incompatible with honorable standing in the profession to resort to public advertisement or private cards inviting the attention of persons affected with particular diseases; to promise radical cures; to publish cases of operations in the daily prints, or to suffer such publications to be made; to invite laymen (other than relatives who may desire to be at hand) to be present at operations; to boast of cures and remedies; to adduce certificates of skill and success, or to employ any of the other methods of charlatans.

§ 8.—It is equally derogatory to professional character for physicians to hold patents for any surgical instruments or medicines; to accept rebates on prescrip-

tions or surgical appliances; to assist unqualified persons to evade the legal restrictions governing the practice of medicine; or to dispense, or promote the use of, secret medicines, for if such nostrums are of real efficacy, any concealment regarding them is inconsistent with beneficence and professional liberality, and if mystery alone give them public notoriety, such craft implies either disgraceful ignorance or fraudulent avarice. It is highly reprehensible for physicians to give certificates attesting the efficacy of secret medicines, or other substances used therapeutically.

Article II.—Professional Services of Physicians to Each Other.

§ 1.—Physicians should not, as a general rule, undertake the treatment of themselves, nor of members of their family. In such circumstances they are peculiarly dependent on each other; therefore, kind offices and professional aid should always be cheerfully and gratuitously afforded. These visits ought not, however, to be obtrusively made, as they may give rise to embarrassment or interfere with that free choice on which such confidence depends.

§ 2.—All practising physicians and their immediate family dependants are entitled to the gratuitous services of any one or more of the physicians residing near them.

§ 3.—When a physician is summoned from a distance to the bedside of a colleague in easy financial circumstances, a compensation, proportionate to traveling expenses and to the pecuniary loss entailed by absence from the accustomed field of professional labor, should be made by the patient or relatives.

§ 4.—When more than one physician is attending another, one of the number should take charge of the case, otherwise the concert of thought and action so essential to wise treatment cannot be assured.

§ 5.—The affairs of life, the pursuit of health and the various accidents and contingencies to which a physician is peculiarly exposed sometimes require the temporary withdrawal of this physician from daily professional labor and the appointment of a colleague to act for a specified time. The colleague's compliance is an act of courtesy which should always be performed with the utmost consideration for the interest and character of the family physician.

Article III.—The Duties of Physicians in Regard to Consultations.

§ 1.—The broadest dictates of humanity should be obeyed by physicians whenever and wherever their services are needed to meet the emergencies of disease or accident.

§ 2.—Consultations should be promoted in difficult cases, as they contribute to confidence and more enlarged views of practice.

§ 3.—The utmost punctuality should be observed in the visits of physicians when they are to hold consultations, and this is generally practicable, for society has been so considerate as to allow the plea for a professional engagement to take precedence over all others.

§ 4.—As professional engagements may sometimes cause delay in attendance, the physician who first arrives should wait for a reasonable time, after which the consultation should be considered as postponed to a new appointment.

§ 5.—In consultations no insincerity, rivalry, or envy should be indulged; candor, probity, and all due respect should be observed toward the physician in charge of the case.

§ 6.—No statement or discussion of the case should take place before the patient or friends, except in the presence of all the physicians attending, or by their common consent; and no opinions or prognostications should be delivered which are not the result of previous deliberation and concurrence.

§ 7.—No decision should restrain the attending physician from making such subsequent variations in the mode of treatment as any unexpected change in the character of the case may demand. But at the next consultation reasons for the variations should be stated. The same privilege, with its obligation, belongs to the consultant when sent for in an emergency during the absence of the family physician.

§ 8.—The attending physician, at any time, may prescribe for the patient; not so the consultant, when alone, except in a case of emergency or when called from a considerable distance. In the first instance the consultant should do what is needed, and, in the second should do no more than make an exam-

ination of the patient and leave a written opinion, under seal, to be delivered to the attending physician.

§ 9.—All discussions in consultation should be held as confidential. Neither by words nor by manner should any of the participants in a consultation assert or intimate that any part of the treatment pursued did not receive his assent.

§ 10.—It may happen that two physicians cannot agree in their views of the nature of a case and of the treatment to be pursued. In the event of such disagreement a third physician should, if practicable, be called in. None but the rarest and most exceptional circumstances would justify the consultant in taking charge of the case. He should not do so merely on the solicitation of the patient or friends.

§ 11.—A physician who is called in consultation should observe the most honorable and scrupulous regard for the character and standing of the attending physician, whose conduct of the case should be justified, as far as can be, consistently with a conscientious regard for truth, and no hint or insinuation should be thrown out which would impair the confidence reposed in the attending physician.

Article IV.—Duties of Physicians in Cases of Interference.

§ 1.—Medicine being a liberal profession, those admitted to its ranks should found their expectations of practice especially on the character and the extent of their medical education.

§ 2.—The physician, in his intercourse with a patient under the care of another physician, should observe the strictest caution and reserve; should give no disingenuous hints relative to the nature and treatment of the patient's disorder, nor should the course or conduct of the physician, directly or indirectly tend to diminish the trust reposed in the attending physician.

§ 3.—The same circumspection should be observed when, from motives of business or friendship, a physician is prompted to visit a person who is under the direction of another physician. Indeed, such visits should be avoided, except under peculiar circumstances; and when they are made, no inquiries should be instituted relative to the nature of the disease, or the remedies employed, but the topics of conversation should be as foreign to the case as circumstances will admit.

§ 4.—A physician ought not to take charge of, or prescribe for, a patient who has recently been under the care of another physician, in the same illness, except in case of a sudden emergency, or in consultation with the physician previously in attendance, or when that physician has relinquished the case or has been dismissed in due form.

§ 5.—The physician acting in conformity with the preceding section should not make damaging insinuations regarding the practice previously adopted, and, indeed, should justify it if consistent with truth and probity; for it often happens that patients become dissatisfied when they are not immediately relieved, and, as many diseases are naturally protracted, the seeming want of success, in the first stage of treatment, affords no evidence of a lack of professional knowledge or skill.

§ 6.—When a physician is called to an urgent case, because the family attendant is not at hand, unless assistance in consultation is desired, the former should resign the care of the patient immediately on the arrival of the family physician.

§ 7.—It often happens, in cases of sudden illness, and of accidents and injuries, owing to the alarm and anxiety of friends, that several physicians are simultaneously summoned. Under these circumstances, courtesy should assign the patient to the first who arrives, and who, if necessary, may invoke the aid of some of those present. In such case, however, the acting physician should request that the family physician be called, and should withdraw unless requested to continue in attendance.

§ 8.—Whenever a physician is called to the patient of another physician during the enforced absence of that physician the case should be relinquished on the return of the latter.

§ 9.—A physician, while visiting a sick person in the country, may be asked to see another physician's patient because of a sudden aggravation of the disease. On such an occasion the immediate needs of the patient should be attended to and the case relinquished on the arrival of the attending physician.

§ 10.—When a physician who has been engaged to attend an obstetric case is absent and another is sent for, delivery being accomplished during the vicarious attendance, the acting physician is entitled to the professional fee, but must resign the patient on the arrival of the physician first engaged.

Article V.—Differences Between Physicians.

§ 1.—Diversity of opinion and opposition of interest may, in the medical as in other professions, sometimes occasion controversy and even contention. Whenever such unfortunate cases occur and cannot be immediately adjusted, they should be referred to the arbitration of a sufficient number of impartial physicians.

§ 2.—A peculiar reserve must be maintained by physicians toward the public in regard to some professional questions, and as there exist many points in medical ethics and etiquette through which the feelings of physicians may be painfully assailed in their intercourse, and which cannot be understood or appreciated by general society, neither the subject-matter of their differences nor the adjudication of the arbitrators should be made public.

Article VI.—Compensation.

§ 1.—By the members of no profession are eleemosynary services more liberally dispensed than by the medical, but justice requires that some limits should be placed to their performance. Poverty, mutual professional obligations, and certain of the public duties named in Sections 1 and 2, of Chapter III, should always be recognized as presenting valid claims for gratuitous services; but neither institutions endowed by the public or by the rich, or by societies for mutual benefit, for life insurance, or for analogous purposes, nor any profession or occupation, can be admitted to possess such privilege.

§ 2.—It cannot be justly expected of physicians to furnish certificates of inability to serve on juries, or to perform militia duty; to testify to the state of health of persons wishing to insure their lives, obtain pensions, or the like, without due compensation. But to persons in indigent circumstances such services should always be cheerfully and freely accorded.

§ 3.—Some general rules should be adopted by the physicians in every town or district relative to the minimum pecuniary acknowledgment from their patients; and it should be deemed a point of honor to adhere to these rules with as much uniformity as varying circumstances will admit.

§ 4.—It is derogatory to professional character for physicians to pay or offer to pay commissions to any person whatsoever who may recommend to them patients requiring general or special treatment or surgical operations. It is equally derogatory to professional character for physicians to solicit or to receive such commissions.

CHAPTER III.—THE DUTIES OF THE PROFESSION TO THE PUBLIC.

§ 1.—As good citizens it is the duty of physicians to be very vigilant for the welfare of the community, and to bear their part in sustaining its laws, institutions, and burdens; especially should they be ready to co-operate with the proper authorities in the administration and the observance of sanitary laws and regulations, and they should also be ever ready to give counsel to the public in relation to subjects especially appertaining to their profession, as on questions of sanitary police, public hygiene, and legal medicine.

§ 2.—It is the province of physicians to enlighten the public in regard to quarantine regulations; to the location, arrangement, and dietaries of hospitals, asylums, schools, prisons, and similar institutions; in regard to measures for the prevention of epidemic and contagious diseases; and when pestilence prevails, it is their duty to face the danger, and to continue their labors for the alleviation of the suffering people, even at the risk of their own lives.

§ 3.—Physicians, when called on by legally constituted authorities, should always be ready to enlighten inquests and courts of justice on subjects strictly medical, such as involve questions relating to sanity, legitimacy, murder by poison, or other violent means, and various other subjects embraced in the science of medical jurisprudence. It is but just, however, for them to expect due compensation for their services.

§ 4.—It is the duty of physicians who are frequent witnesses of the great wrongs committed by charlatans, and of the injury to health and even destruction of life caused by the use of their treatment, to enlighten the public on these subjects, and to make known the injuries sustained by the unwary from the devices and pretensions of artful impostors.

§ 5.—It is the duty of physicians to recognize and by legitimate patronage to promote the profession of pharmacy, on the skill and proficiency of which depends the reliability of remedies, but any pharmacist who, although educated in his own profession, is not a qualified physician, and who assumes to prescribe for the sick, ought not to receive such countenance and support. Any druggist or pharmacist who dispenses deteriorated or sophisticated drugs or who substitutes one remedy for another designated in a prescription ought thereby to forfeit the recognition and influence of physicians.

Laboratory and Office: 121 West 83d St.

THE CRANE OXYGEN WORKS desire to call the attention of the medical profession to their new, modern, and luxurious coaches ready for service, day or night. These Crane Coaches are especially adapted for the moving of patients and invalids from residences, hospitals, sanitariums, steamships, railroad depots, etc. They are the most complete and sumptuous vehicles ever yet constructed for absolute comfort, and are fully equipped with all up-to-date appliances, including medicine chest (prepared for emergencies), ice repositories, electric lights, electric fans, heaters, etc.

There are accommodations for physician and nurse or members of the family. To avoid publicity, the coaches are modeled after the style of a superb opera-bus, fitted with extra pliable springs, and rubber tired to reduce vibration.

A careful and competent driver is furnished, in addition to two thoroughly trained attendants (not uniformed) to handle the most critical cases.

We manufacture the purest and best Oxygen Compound and Pure Oxygen compressed in small and large cylinders, each cylinder fitted with Crane's Patented Valve and Registering Gauge, the most practical in the market.

When patients are taken to or from points at a distance from the city where the coach cannot be sent, one or two skilled attendants can be sent with the bed, which is so arranged that a litter can be formed of it, and the patient transferred from the train or other conveyance to the coach without change or bodily discomfort.

PLASMON

The Unaltered Soluble Caseinogen of Pure, Fresh Milk

PLASMON is soluble caseinogen, retaining the original organic characteristics of milk.

PLASMON contains all the original organic salts which constitute an essential feature of living albumen. **Without these salts albumen is wholly valueless as a nutrient.**

The solubility of PLASMON is not secured at the expense of its alimentary properties.

IT IS THE MOST PERFECT NATURAL FOOD

Dr. C. Virchow (Berlin) says: "PLASMON is easily digested and wholly assimilated. The digestibility of PLASMON I found to be 99.4 per cent. PLASMON is the albumen of fresh milk in its original, unaltered condition."

Professor Gautier, of Paris, states that PLASMON is rich in assimilable phosphates, having carried down with it the nucleo-albumens, together with the greater part of the phosphates contained in milk. We know that the nucleo-albumens are the very substances which serve to build up the cell-nuclei, and thus insure the vitality of the tissues and the process of assimilation."

This is not the case with any other milk preparation.

PLASMON is practically free of sugar and fat.

PLASMON is indicated in:

Wasting Diseases, Ricketts, Enteric Fever,
Acute Indigestion, Anaemia, Stomach Disorders,
Febrile Diseases, Obesity, Tuberculosis, etc.

PLASMON can be administered without raising the temperature, and, being pure nutriment, does not in any way interfere with the treatment.

PLASMON, being essentially nutritive element, can be added to any and every form of food. The "Lancet" (London) states: "The addition of PLASMON to any form of food raises the nourishing value of such food to a high and trustworthy degree."
